

UV Disinfection Light

Intelligent UV Disinfection System

High Efficient in Defending Virus and Protect Your Health

Electronic Intelligent UV Disinfection Light

Infrared Biometric Detection UV Disinfection Bluetooth Connection

Biometric Detection
Keep Human Safe

254nm
UV Light Wave

Disinfection Efficiency
Can Reach 99%

Multiple
Disinfection Mode

App Control
With Bluetooth

Regular
Switch on/off
with Timer

Integrated Design
Closable Light Cover

Voice Broadcast

253.7nm UV Light Wave
(No Ozone)

Disinfection Rate Reach **99%**

分析检测报告
ANALYSIS REPORT

报告编号: DG2023010001

序号	检测项目	检测结果	判定
1	紫外线灯管消毒效果评价	99.9%	合格
2	紫外线灯管消毒效果评价	99.9%	合格
3	紫外线灯管消毒效果评价	99.9%	合格

检测结论: 紫外线灯管消毒效果评价合格。

检测日期: 2023年1月10日

检测地点: 广东省微生物分析检测中心

检测人员: 张三

审核人员: 李四

批准人员: 王五

Infrared Biometric Detection Voice Reminder

Infrared Biometric Recognize System

When it detect human or other living things,
the light can't switch on or shut down automatically.

Multi-language Voice Reminder

Multifunctional APP Control

The Virus Guard Protects You

Bluetooth
Connection

Office House
Customize Hall

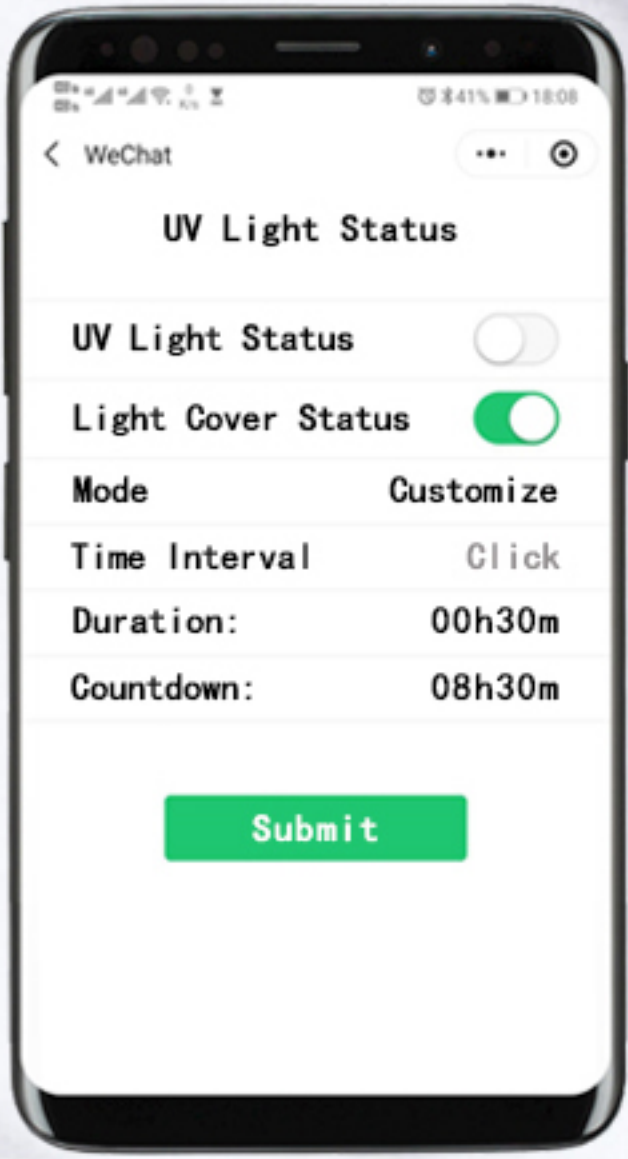

Optional
Disfection Mode

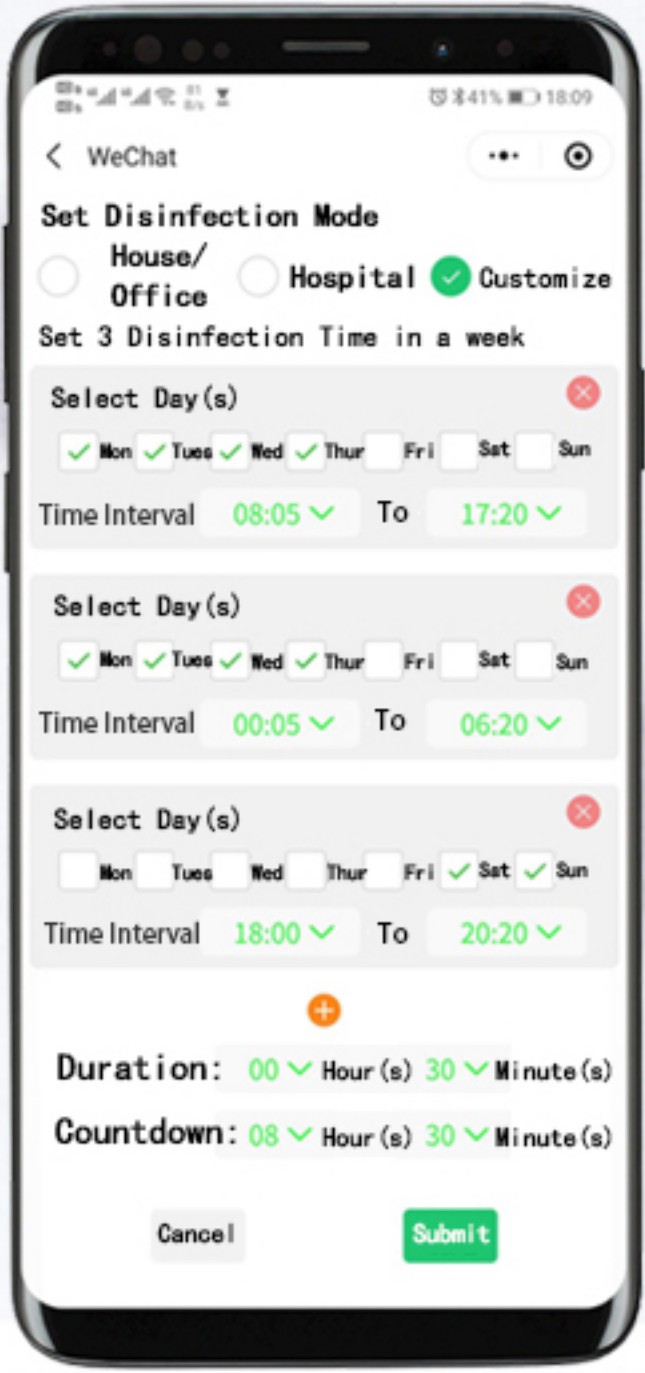

Sleep Timer

Customize the Disinfection Time

Set the working time according to different occasion
The light will switch off automatically when the disinfection finished

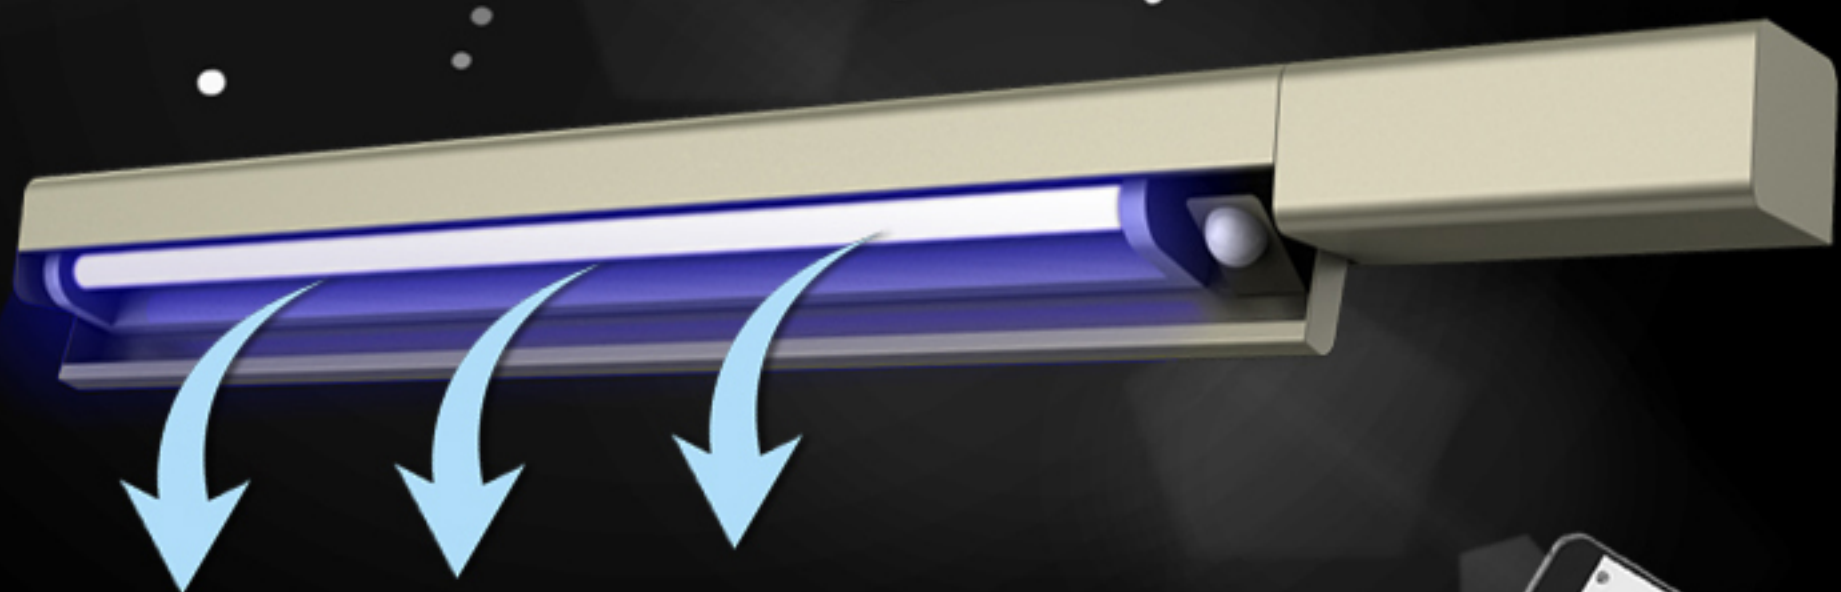

Settings

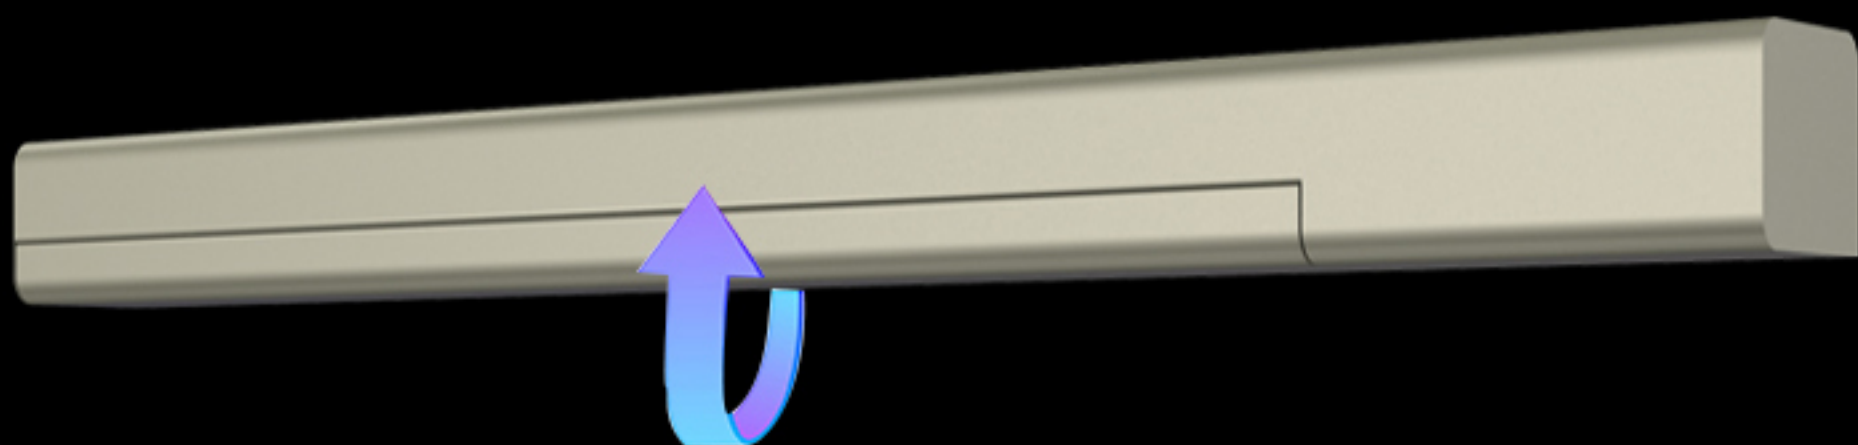

Advanced Setting

Intelligent Closable Light Cover

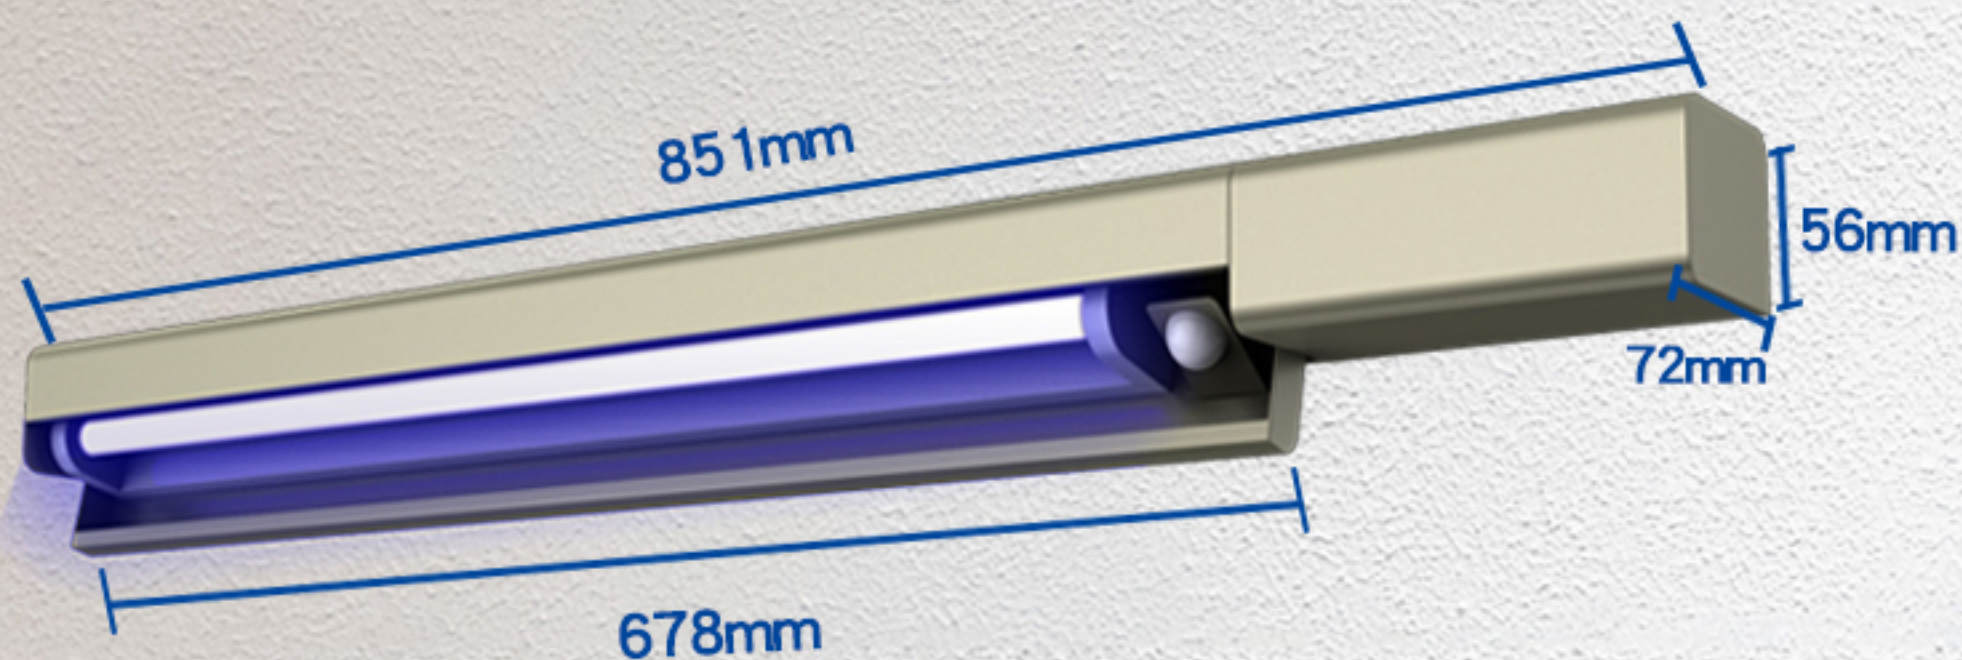

The light cover can open automatically when it works.

The light cover can close automatically when the disinfection is finish.

Product Parameters

Name	UV Disinfection Light
Disinfection Range	20~30m ²
UV Light Power	20W
Human Detection Distance	0.5-4 meters
Weight	3.5±0.2kg
UV Spectrum	253.7nm (No Ozone)
Voltage	AC220V
Size	851*72*56(mm)
UV Lamp Life	8000hours
UV Strength	90uw/cm ²
Speakers	4Ω1.5W

Application

High Disinfection Efficiency and Wide Application Range

Hospital

School

Restaurant

Hotel

Office Building

Bank

One-stop AI Hardware OEM Service
